12 September 1973

MEMORANDUM FOR: Chief, Engineering, OC

FROM : Chief,

25X1

SUBJECT : Replacement for TELECOPIER I

1. We have secure voice subscribers who are expressing interest in and have requirements for low volume facsimile service. Normally, we would satisfy these requirements with the TELECOPIER I, however, TELECOPIER I's are no longer available from the XEROX Corporation and to our knowledge OC has not selected a replacement unit.

2. It is requested that a suitable facsimile unit be found which will be compatible with the TELECOPIER I so that the present TELECOPIER network can be entered by new subscribers. Obviously, the replacement unit should be TEMPEST tested and approved.
